

Article about the certification of required documents for admission in Technical University of Munich (TUM)

It has been observed in the past years, that the documents were **not certified** properly for admission criteria. To be honest, I also had the same problem and every year the perspective students are also having the same. Therefore, I am going to explain about this issue.

- Get **ALL** the required documents notarized from any notary public lawyer.
 - SSC Certificate
 - SSC Transcript
 - HSC Certificate
 - HSC Transcript
 - IELTS Copy
 - Bachelor Certificate
 - Bachelor Transcript
 - Medium of instruction from the university
 - Passport copy
 - And any other relevant (experience, extra-curricular activities etc.) documents
- To be on safe side, certify your **university's documents** (Bachelor certificate, transcript and medium of instruction) from the university.

I **HOPE (can't guarantee)** that from the next semester (Summer 2018), no one would have any further problem with certification of their documents for TUM, only if they are following this way.
